EDUCATION

SRM Institute of Science and Technology, Ramapuram

B.Tech in Computer Science Engineering (IoT)

2024 – 2028

Chennai

Valley View School

Senior Secondary (Science with Computer Science)

2022 – 2024

Jamshedpur

EXPERIENCE

Future Interns

2025

Full Stack Web Development Intern

Remote

- Built responsive web applications using React, Next.js, and Tailwind CSS.
- Integrated Firebase Authentication and Firestore for user authentication and data management.
- Used Git and GitHub for version control and collaborative development.

CodSoft

2025

Python Development Intern

Remote

- Developed GUI-based Python applications using Tkinter.
- Implemented event-driven programming concepts and interactive user interfaces.

PROJECTS

BioRekha Healthcare Platform | *React, Firebase, Firestore, Chart.js*

- Developed a healthcare web application for recording and monitoring blood pressure and blood sugar readings.
- Implemented Google Authentication and Firestore for secure user authentication and data storage.
- Added input validation, reading history, and interactive charts for vital-data visualization using Chart.js.

Emotion-Based Mood Lighting System | *Python, ESP32, OpenCV, DeepFace*

- Built an AIoT system that detects facial emotions through a webcam and controls ambient lighting accordingly.
- Connected Python-based emotion detection with an ESP32-controlled WS2812B LED strip through serial communication.
- Implemented emotion stabilization to reduce rapid lighting changes and provide smoother transitions.

Sarvam Mart | *React, Firebase, REST APIs*

- Developed a responsive e-commerce web application with product browsing, shopping cart, and order functionality.
- Integrated REST APIs for product data and Firebase for authentication and backend data management.

Personal Portfolio Website | *HTML, CSS, JavaScript*

- Designed and deployed a responsive developer portfolio showcasing projects, skills, and experience.
- Deployed the website using Netlify with source code maintained on GitHub.

TECHNICAL SKILLS

Languages: Python, C++, Java, JavaScript, SQL

Frontend: React, Next.js, HTML5, CSS3, Tailwind CSS

Backend / Database: Firebase, Firestore, REST APIs

Libraries / Tools: Chart.js, OpenCV, DeepFace, Git, GitHub, VS Code, Netlify

IoT: ESP32, WS2812B LED Strip

CERTIFICATIONS

Google Cloud: Introduction to Generative AI Studio

Cisco Networking Academy: Operating Systems Basics

Infosys Springboard: JavaScript Getting Started with JavaScript Programming, JavaScript Objects and Functions, Flutter Development Introduction

Udemy: Database Management System
